LETTER OF TRANSMITTAL

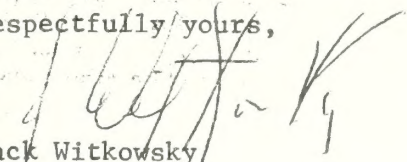

STATE OF ILLINOIS
State Board of Education
Illinois Office of Education
Springfield, June 30, 1976

The Honorable Dan Walker
Governor of Illinois
Springfield, Illinois

Dear Governor Walker:

As required by Section 2-3.11 of The School Code of Illinois, I have the honor to submit herewith the 1975 Annual Report of the State Board of Education.

Respectfully yours,

Jack Witkowski
Chairman
State Board of Education

ERRATA

After publishing Fall Pupil Enrollment and Teacher Statistics, Illinois Public Schools, 1974-1975 School Year, a programming error was discovered.

The elementary enrollment data for districts on pages 1-54 may be in error. If the district had students in a pre-kindergarten special education program, the total elementary enrollment shown will be understated by the number of pupils enrolled in pre-kindergarten special education. County and state totals are correct.

PREFACE

The information for this publication was taken from the 1974-1975 Public District Fall Enrollment and Housing Report filed by each school district. The data reflect staff and enrollment on the last school day of September.

Pages 1-56 indicate elementary pupils enrolled including Pre-Kindergarten through grade 8. Also included are the Elementary Special Education and Ungraded Elementary pupils. Pages 57-112 lists the secondary pupils, grades 9-12. Also listed are the secondary Special Education, Ungraded Secondary, Post Graduates, Total Secondary Pupils, and Total Enrollment of all grades. District, county and state totals are presented.

The full-time equivalency of the classroom teaching staff, the certified non-instruction staff and the non-certified staff are related by district with county totals in part 2, pages 1-46. Also included is the ratio of pupils to teachers and pupils to total certified staff.

Enrollment in public schools peaked in 1971 at 2,379,982. By the fall of 1974 enrollment decreased by 83,741, or nearly 3.5 percent. The decrease between the fall of 1973 and 1974 equalled 24,431.

As can be seen from the map on the next page, between the fall of 1973 and the fall of 1974, enrollment decreased in 80 of the 102 counties. In one county enrollment held at the 1973 figure. The biggest rate of increase in enrollment occurred in Lake County where total enrollment climbed from 93,188 to 96,731 (3.81%). The largest rate of decrease was in Hamilton County, falling from 1716 to 1629, a decline of 5.07 percent. Increased public school enrollment in JoDaviess and Coles County can be attributed to the closing of a non-public school in each county. The totals of public and non-public enrollment actually decreased in the two counties.

Although public school enrollment has decreased since 1971, the full-time equivalency of classroom teachers has continued to rise, the increase between 1973 and 1974 equal 2,045.8 full-time equivalent teachers, fifty two percent of this increase was in teachers of special education.

With decreased enrollment and an increased number of full-time equivalent teachers, the statewide pupil-teacher ratio has decreased from 22.5 in 1971 to 20.4 in 1974. Thus, on the average, there were 2.1 fewer pupils per classroom teacher in 1974 than in 1971. Much of this drop was due to the expansion of special education programs.

July, 1975

Joseph M. Cronin
Superintendent

KEY TO THE CODING OF SCHOOL DISTRICTS

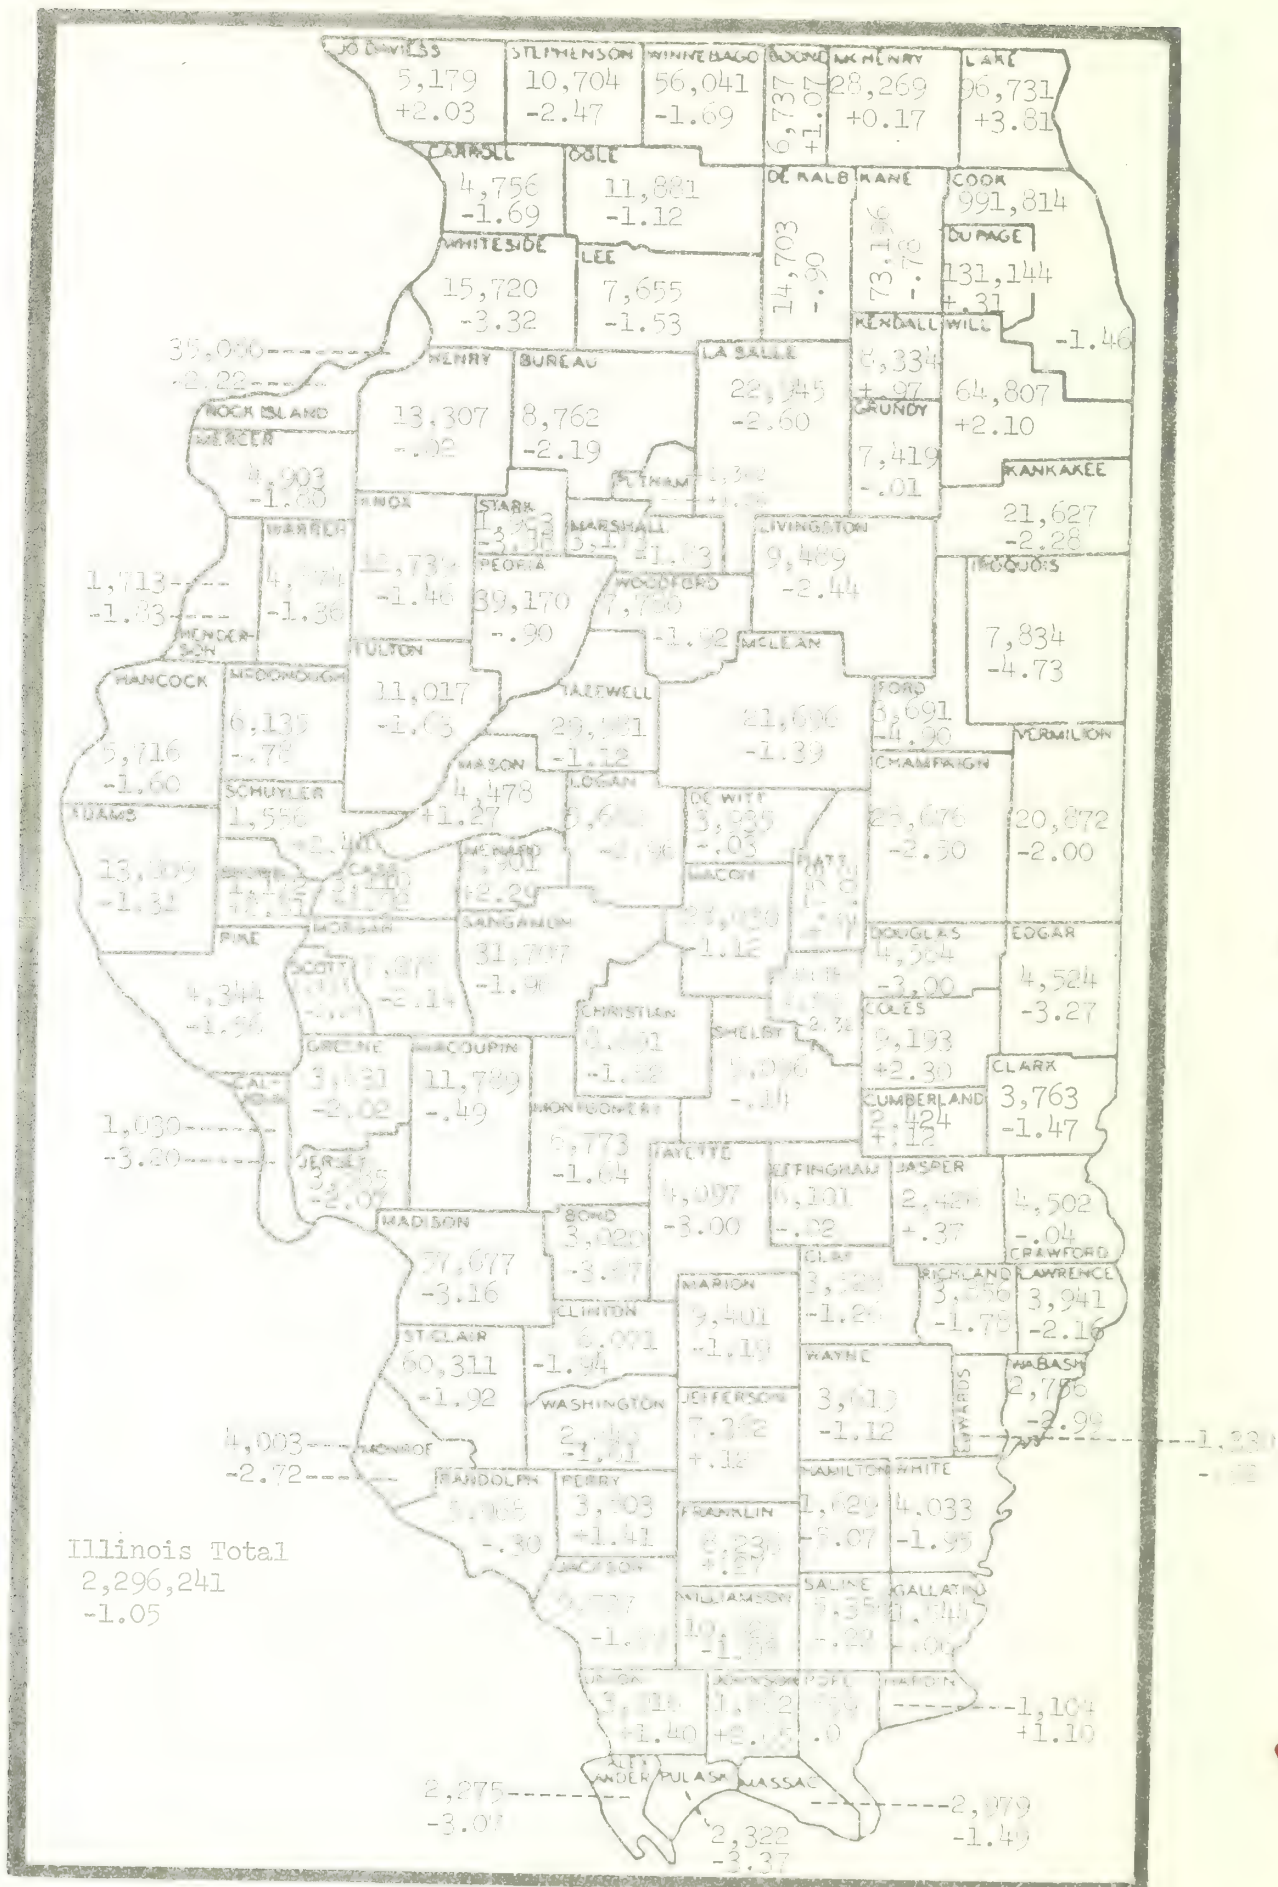

The following key to the coding of school districts was used to assign a code number to each district:

1. County codes--a three-digit code number commencing with 001 and continuing through 102 has been assigned to the 102 counties in alphabetical order.
2. District number codes--a four-digit code number has been used to include the present legal school district number.
3. District type codes--a two-digit number has been assigned in accordance with the following list to identify the type of each school district:

<u>ELEMENTARY</u>	<u>HIGH SCHOOL</u>	<u>UNIT</u>
01. Common--1 Teacher	13. Consolidated	22. Old Type
02. Common--Other	15. Charter	24. Community Consol.
03. Consolidated	16. Community	25. Charter
04. Community Consol.	17. Township	26. Community Unit
05. Charter	18. Protectorate	
	19. Nonhigh	

4. District codes--the complete code number uniquely identifying each school district in the State of Illinois is a nine-digit number formed by consolidating the county, district number, and district type codes described above, in the order named.

FALL 1974 PUBLIC SCHOOL ENROLLMENT BY COUNTY,
AND PERCENTAGE CHANGE BETWEEN FALL 1973 AND FALL 1974

Chicago's enrollment was 336,657, or a decrease of -.50 from last year's

There were sixty-four school districts which reported students as being in nongraded programs. In order to assist those making enrollment projections these districts also reported the students in nongraded programs by the age of the pupil as of December 1. Below all pupils counted in nongraded programs are distributed to a grade based upon their age, where pupils less than 5 years of age are assumed to be at the Pre-Kindergarten level, five year olds at the Kindergarten level, 6 year olds in the first grade, ..., and 17 year olds are assumed to be in the twelfth grade. Students 17 years old and above in nongraded programs came exclusively from the Department of Corrections School District 428 and are assigned to post-graduate level.

Errata

The 1974-75 Fall Pupil Enrollment and Teacher Statistics Independent, Parochial, and Private Schools Circular Series A Number 342 was distributed to the different schools in the State of Illinois. The data were obtained and compiled from form IOE 87-01 1974-75 Independent, Parochial, and Private Fall Enrollment and Housing Report.

Recently, when the original tape was in the process of being updated, errors were discovered in the affiliation code of certain schools throughout the state. Listed within the following pages are the corrected affiliations.

PREFACE

The data for this publication were taken from the 1974-1975 Independent, Parochial, and Private Fall Enrollment Report filed by each school. Independent schools have no religious affiliation and are nonprofit organizations. Parochial schools are religious and not for profit. Private schools include those which have no religious affiliation, but may make a profit. The enrollment shown is the number of pupils enrolled as of the last day of September. The number of teachers includes both full-time and part-time classroom staff.

Pages 1-31 indicate elementary pupils enrolled including Pre-Kindergarten through grade 8, special education and ungraded elementary pupils. Pages 32-63 list the secondary pupils by grade, number in special education, those enrolled in ungraded programs, and the number of high school graduates for the 1973-1974 school year. Also included is an estimate of the number of pupils who are foster children between the ages of 5 and 17 or from low-income families. A low-income family is defined to be a family with an income of less than \$2,000 per year, or above \$2,000 but on public aid.

Pages 64-99 list the teachers by categories Pre-K, Pre-K Special Ed, Kindergarten, Elementary, Junior High, High School, and Special Education. These data are subdivided into full-time employees and part-time employees. Teacher data are presented for the school, county, and state.

As can be seen in the map following the preface, 246,892 of the 378,894 Independent, Parochial and Private School students are located in Cook County. Within the county this is 8,600 fewer pupils than last year, and represents 53.5 percent of the total nonpublic enrollment.

Enrollment in Independent, Parochial, and Private Schools has been declining rapidly. Between 1973 and 1974 enrollment decreased by 10,370, or 2.7 percent. Since 1965, enrollment has fallen from 566,359 to 378,894. For every 100 pupils in nonpublic schools in the Fall of 1965 there were 66.9 pupils ten years later.

INDEPENDENT, PAROCHIAL AND PRIVATE SCHOOLS:
NUMBER OF SCHOOLS: ELEMENTARY, HIGH SCHOOL AND TOTAL ENROLLMENT

	No. of Schools	Elementary Enrollment	H. S. Enrollment	Total Enrollment
1965-66	1,234	451,161	115,198	566,359
1970-71	1,177	343,604	105,148	448,752
1971-72	1,174	321,341	101,783	423,124
1972-73	1,207	309,035	99,787	408,822
1973-74	1,206	292,383	96,881	389,264
1974-75	1,227	280,971	97,923	378,894

Although enrollment has declined, the number of schools reporting has increased. This is due in part to the increased number of schools which specialize in pre-kindergarten education, and to the efforts of the Illinois Office of Education to obtain reports from all schools.

The number of high school graduates from Independent, Parochial, and Private Schools has declined in five years from 27,310 during 1968-69 to 21,101 in 1973-74. Graduates from nonpublic schools represent 13.2 percent of the public and nonpublic secondary graduates.

There were 13,247 foster children or pupils from low-income families reported by the nonpublic schools.

Declining enrollment is associated with a decline in the number of classroom teachers. There are 578 fewer full-time and 146 fewer part-time classroom teachers in September 1974 than in the previous year. The staff in Independent, Parochial and Private Schools included 1,428 full-time and 275 part-time administrators and 15,409 full-time and 2,210 part-time classroom teachers.

April, 1975

KEY TO THE CODE OF INDEPENDENT, PAROCHIAL, AND PRIVATE SCHOOLS

Independent, parochial, and private schools have been assigned code numbers similar to those assigned to public schools for positive identification and a system for electronic data processing. The key to the code numbers follows:

1. County code--a three-digit number commencing with 001 and continuing through 102 has been assigned in alphabetical order to the 102 counties.
2. School identification code--a three-digit number with a letter X, Y, or Z identifies the school within a county. This number was assigned in the order that requested data were received from the schools. X identifies elementary schools (Pre-K-8), Y identifies high schools (9-12), and Z identifies any grade combination spanning elementary and high schools (Pre-K-12), and special ed schools.
3. School affiliation code--a two-digit number assigned in accordance with the affiliation of the school.

AFFILIATION CODE

Nonaffiliated (Independent)	01	Methodist	07
Baptist	02	Presbyterian	08
Christian Reformed	03	Protestant Episcopal	09
Friends	04	Roman Catholic	10
Jewish	05	Seventh-Day Adventist	11
Lutheran	06	Private	12
		Other Christian School	13
Example: 006002X10		Other Religious Affiliation	14

County Number Alphabetically	School Number	Type of School	Affiliation of School

Preface

The data in this publication have been compiled from the 1974-1975 Illinois School District Annual Financial Reports. The first section of this circular shows the major sources of income: Local Taxes, Common School Fund, Other State Funds, Federal Funds, Student and Community Services, Other Revenue, and Total Receipts. The last section presents the expenditures by major accounting classification: Administration, Instruction, Student and Community Services, Operations, Maintenance and Fixed Charges, Bond Principal Retired, Capital Outlay, Other Expenditures, and Total Expenditures. Educational Service Region totals and the State total for each classification of receipts and expenditures are also provided.

Table 1. Receipts and Expenditures for Illinois Public School Districts, 1970-1971 thru 1974-1975 (Rounded to the nearest tenth of a million)

	1970-71	1971-72	1972-73	1973-74	1974-75
Receipts	\$2,367.7	\$3,013.2	\$2,885.6	\$3,530.8	\$3,855.8
Local Taxes	1,145.1	1,660.8	1,379.4	1,926.5	1,782.6
Common School Fund	718.4	758.7	864.2	903.1	1,074.4
Other State Funds	102.6	113.2	161.0	151.1	262.3
Federal Funds	153.6	145.5	158.8	156.1	208.5
Student and Community Services	101.0	104.4	104.3	115.2	116.2
Other Revenue	146.9	230.6	217.8	278.7	411.8
Expenditures	\$2,644.2	\$2,802.6	\$2,996.2	\$3,248.8	\$3,770.4
Administration	90.9	95.6	100.7	106.8	120.1
Instruction	1,489.8	1,590.3	1,682.9	1,817.5	2,052.2
Student and Community Services	179.0	194.3	214.2	217.3	239.7
Operations, Maintenance & Fixed Charges	489.9	532.9	596.7	671.5	783.7
Bond Principal Retired	120.8	127.7	133.7	138.6	144.3
Capital Outlay	243.9	227.8	229.0	256.2	370.0
Other Expenditures	29.9	34.1	39.1	40.8	60.4

Table 2. Percentage Distribution of Receipts and Expenditures for Illinois Public School Districts, 1970-71 thru 1974-75.

	1970-71	1971-72	1972-73	1973-74	1974-75
Receipts					
Local Taxes	48.4%	55.1%	47.8%	54.6%	46.2%
Common School Fund	30.3	25.2	30.0	25.6	27.9
Other State Funds	4.3	3.8	5.6	4.3	6.8
Federal Funds	6.5	4.8	5.5	4.4	5.4
Student & Community Services	4.3	3.5	3.6	3.3	3.0
Other Revenue	6.2	7.6	7.5	7.9	10.7
Expenditures					
Administration	3.4%	3.4%	3.4%	3.3%	3.2%
Instruction	56.3	56.7	56.2	55.9	54.4
Student and Comm. Services	6.8	6.9	7.1	6.7	6.4
Operations, Maintenance & Fixed Charges	18.5	19.0	19.9	20.7	20.8
Bond Principal Retired	4.6	4.6	4.5	4.3	3.8

Article X, Section 1, of the Constitution of the State of Illinois states "A fundamental goal of the People of the State is the educational development of all persons to the limits of their capabilities.... The State has the primary responsibility for financing the system of public education". Since the inauguration of the tax upon corporate and individual income in August of 1969, which first affected fiscal 1970, an increasingly important role has been played by the State in financing education in Illinois. In the year preceding the adoption of the income tax a total of \$451.2 million in school district revenue originated from the State Common School Fund and other categories of financial assistance. By 1974-75, the State provided \$1,336.7 million in assistance from the Common School Fund and other categorical type funds.

From Fiscal Year 71 to Fiscal Year 75, school district expenditures have increased by 42.6 percent. During the five year period, expenditures made to meet the costs of Operations, Maintenance and Fixed Charges have increased 60 percent. The rate of increase in administrative and student and community services expenditures is averaging approximately seven percent per year, while instructional costs over the five year period have been increasing at an average annual rate of eight percent.

Joseph M. Cronin
State Superintendent of Education

Department of Research, Statistics, and Evaluation

PREFACE

The Annual Claim for State Aid statistics presented in the publication are computed according to the State Aid Law enacted during calendar 1973 and amended in 1974 by House Bill 2753. Under the Law, districts are being reimbursed under one of two state aid formulas in effect for 1974-1975.

Under the "resource equalizer" formula, a district's claim amount is based on the concentration of Elementary and Secondary Education Act (ESEA) Title I eligible pupils, wealth as measured by equalized assessed valuation per weighted average daily attendance (WADA) pupil, and operating tax rate. Claim amounts for 1974-1975 are limited to an increase of two-fourths of the increased difference between the fully funded computations and 1972-1973 actual entitlements. However, no district may receive estimated payments in excess of a 25 percent increase when compared to 1973-1974 actual entitlements.

The other method of allocation included in the State Aid Law is an amended version of the 1972-1973 Strayer-Haig Formula. It provides for qualifying tax rates of .84%, .90%, or 1.08% a .45 weighting of ESEA-Title I eligibles, and a 25 percent add-on with a maximum allowable claim increase of 25 percent over 1973-1974 entitlements.

Two pages of information are presented for each district. Columns on the first page show pupil attendance data, the number of ESEA-Title I eligible pupils, and district wealth as measured by equalized assessed valuation per pupil according to different weightings. Columns on the second page show district 1972 equalized assessed valuation, 1972 actual operating tax rate, 1972 operating tax rate used for General State Aid calculation, and various General State Aid calculations. The column titled "1974-1975 Estimated Claim Amount" is the greater of the amount determined under the two formulas shown in the columns titled

"1974-1975 Resource Equalizer Estimated Total Claim" and "1974-1975 Strayer-Haig Estimated Total Claim. Prior year adjustments are shown in the column titled 'Adjustments'. The column titled 'Net 1974-1975 Estimated Claim Amount' contains the estimated claim plus or minus adjustments. These estimated claims for 1974-1975 are computed on each district's 1973-1974 best six months' WADA, 1973-1974 ESEA-Title I eligibles, 1972 equalized assessed valuation, and 1972 tax rates (tax rates applicable to the 1972 equalized assessed valuation).

October, 1974

KEY TO THE CODING OF SCHOOL DISTRICTS

The following key to the coding of school districts was used to assign a code number to each district:

1. County codes--a three-digit code number commencing with 001 and continuing through 102 has been assigned to the 102 counties in alphabetical order.
2. District number codes--a four-digit code number has been used to include the present legal school district number.
3. District type codes--a two-digit number has been assigned in accordance with the following list to identify the type of each school district:

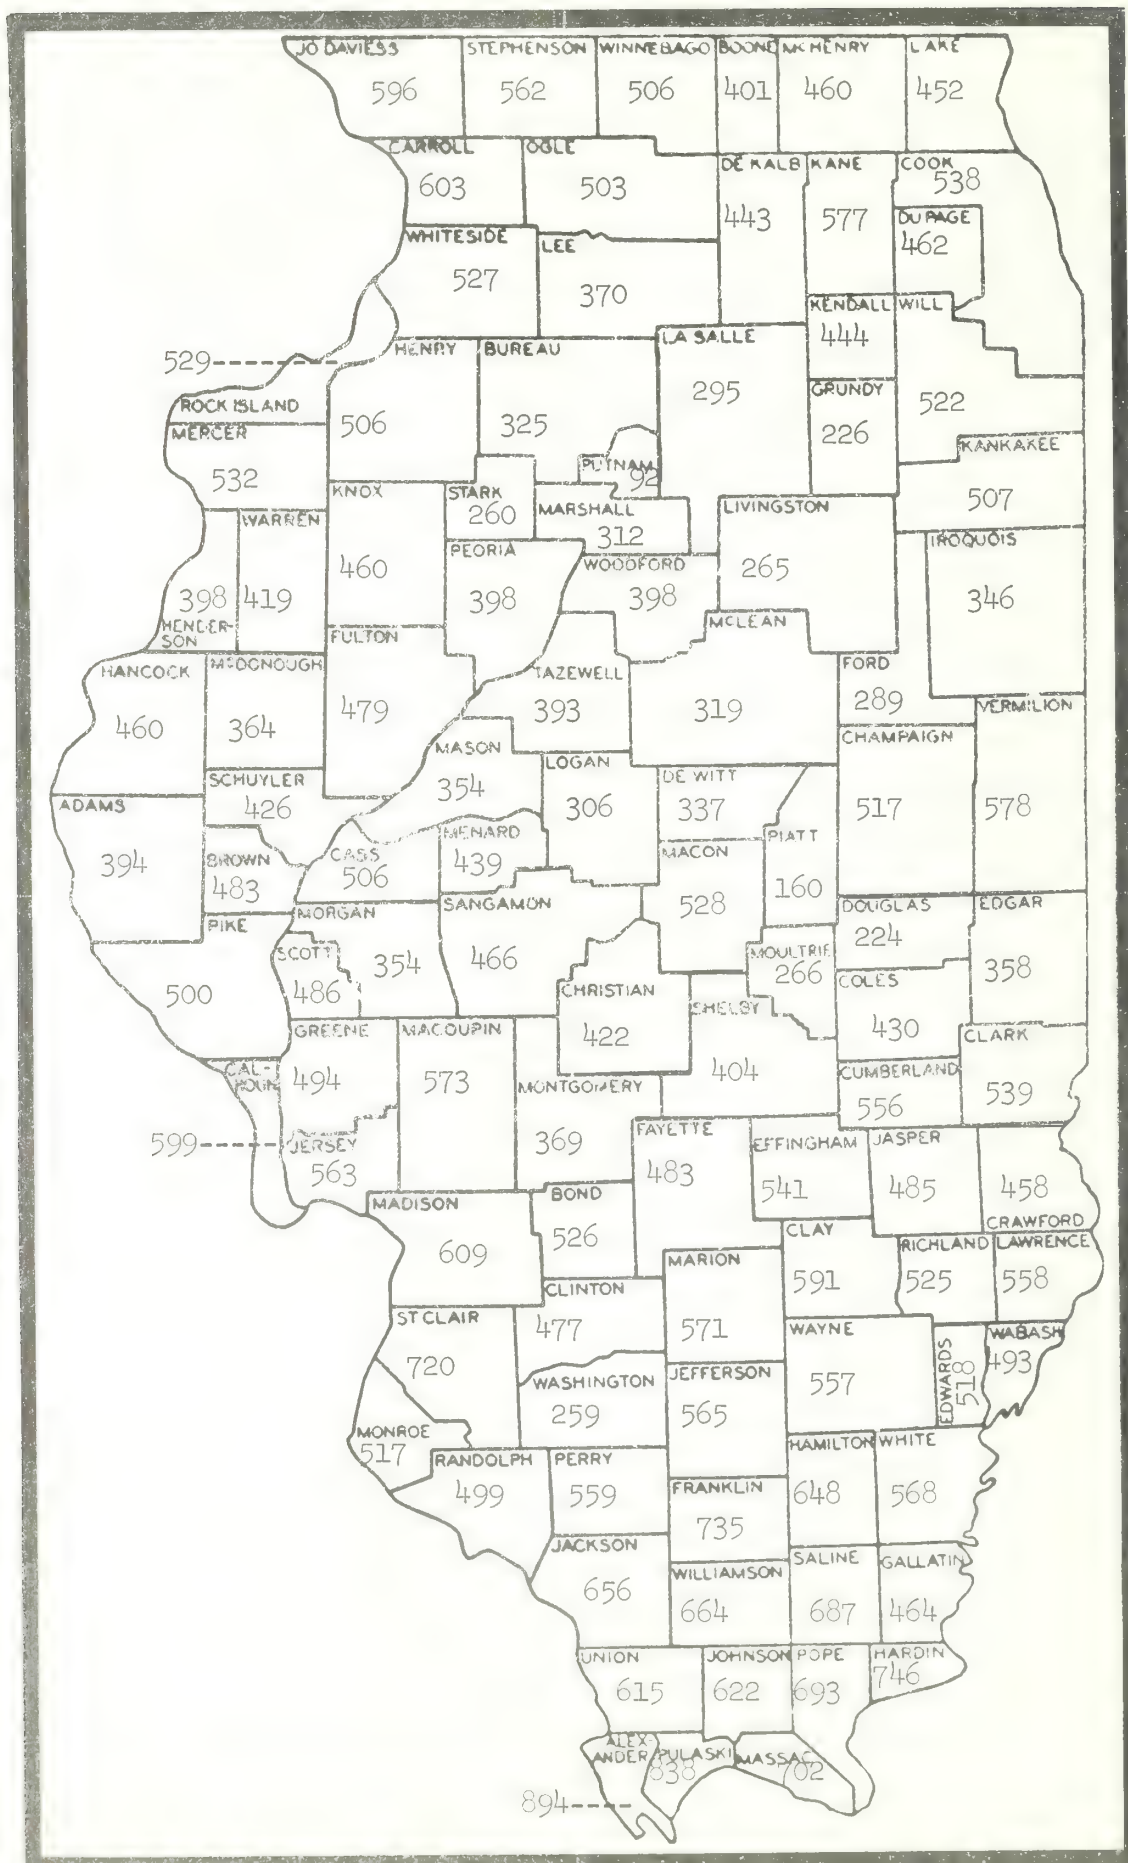

ELEMENTARY

HIGH SCHOOL

UNIT

- | | | |
|-----------------------|------------------|-----------------------|
| 01. Common--1 Teacher | 13. Consolidated | 22. Old Type |
| 02. Common--Other | 15. Charter | 24. Community Consol. |
| 03. Consolidated | 16. Community | 25. Charter |
| 04. Community Consol. | 17. Township | 26. Community Unit |
| 05. Charter | 18. Protectorate | |
| | 19. Nonhigh | |

4. District codes--the complete code number uniquely identifying each school district in the State of Illinois is a nine-digit number formed by consolidating the county, district number, and district type codes described above, in the order named.

KEY TO THE CODING OF SCHOOL DISTRICTS

The following key to the coding of school districts was used to assign a code number to each district:

1. Region Codes--a two digit code number commencing with 01 and continuing through 78 has been assigned to the 102 counties, with the counties being listed under their respective region in alphabetical order.
2. County codes--a three digit code number commencing with 001 and continuing through 102 has been assigned to the 102 counties in alphabetical order.
3. District number codes--a four digit code number has been used to include the present legal school district number.
4. District type codes--a two digit number has been assigned in accordance with the following list to identify the type of each district:

<u>ELEMENTARY</u>	<u>HIGH SCHOOL</u>	<u>UNIT</u>
01. Common--1 Teacher	13. Consolidated	22. Old Type
02. Common--Other	15. Charter	24. Community Consol.
03. Consolidated	16. Community	25. Charter
04. Community Consol.	17. Township	26. Community Unit
05. Charter	18. Protectorate	
	19. Nonhigh	

District codes--the complete number uniquely identifying each school district in the State of Illinois is a eleven digit number formed by consolidating the region, county, district number, and district type codes described above, in the order named.

October, 1975

KEY TO THE CODING OF SCHOOL DISTRICTS

The following key to the coding of school districts was used to assign a code number to each district:

1. Region Codes--a two digit code number commencing with 01 and continuing through 78 has been assigned to the 102 counties, with the counties being listed under their respective region in alphabetical order.
2. County codes--a three digit code number commencing with 001 and continuing through 102 has been assigned to the 102 counties in alphabetical order.
3. District number codes--a four digit code number has been used to include the present legal school district number.
4. District type codes--a two digit number has been assigned in accordance with the following list to identify the type of each district:

<u>ELEMENTARY</u>	<u>HIGH SCHOOL</u>	<u>UNIT</u>
01. Common--1 Teacher	13. Consolidated	22. Old Type
02. Common--Other	15. Charter	24. Community Consol.
03. Consolidated	16. Community	25. Charter
04. Community Consol.	17. Township	26. Community Unit
05. Charter	18. Protectorate	
	19. Nonhigh	

District codes--the complete number uniquely identifying each school district in the State of Illinois is a eleven digit number formed by consolidating the region, county, district number, and district type codes described above, in the order named.

October, 1975

LINCOLN DEVELOPMENTAL CENTER, 1974-1975

Lincoln Developmental Center is a large residential facility for developmentally delayed individuals of all ages and various functioning levels. Many services and consultants are available to the residents, including special education, speech therapy, activity therapy, religious opportunities, vocational training, medical care, social services, living area programs, psychologist, audiologist, physical therapist, otolaryngologist, and ophthalmologist. Residents also receive services through a foster grandparent program and volunteer services. Facility programs are focused toward elevating each resident's skills to his/her highest potential, maximizing family and home community involvement, and returning to the family constellation, when possible.

Both structured programs and reinforcement programs are present in the unit structures. A structured program is one in which a written program is used, with specific objectives and behaviors taught and data collected on each program. Reinforcement programs include those programs in which a resident engages in activities in order to reinforce or maintain learned skills.

Special Education at Lincoln Developmental Center shall be defined as the systematic organization of an individual's environment to bring about observable behavioral changes which will promote independent living. All special education programs must have three major components, which are: 1. written clearly defined objectives of the desired behavioral outcomes; 2. a written systematic plan for achieving those objectives; and 3. a data collection method for measuring the learner's progress during each training session. The total facility census June 30, 1975, was one thousand six hundred eighty-one, of which six hundred twenty-six were under twenty-one. Five hundred twenty-one residents under twenty-one were receiving educational and/or training services for a twelve month period.

Title VI and Title I grants provided additional educational intervention for residents of Lincoln Developmental Center. Title VI provided an educational program for nineteen deaf-blind, developmentally delayed residents. Title I provided additional programming for one hundred eighty-nine residents in the Student Training and Community Placement grant.

ILLINOIS SOLDIERS' AND SAILORS' CHILDREN'S SCHOOL
NORMAL, ILLINOIS

EDUCATIONAL PROGRAM

I. DEVELOPMENTAL HISTORY

Illinois Soldiers' and Sailors' Children's School has provided educational programs for children since the institution was established in 1869. The purpose of the school, as provided by statute, is to provide care, training and education for children who have been declared dependent or neglected or minors in need of supervision under provisions of the Juvenile Court Act. For the better part of the school's first century of service, educational programs were provided by a graded elementary and junior high school program located on the institution's grounds. High school students attended Normal Community High School or University High School. During the decade of the sixties the educational programs of the institution underwent some major changes.

Beginning in the early sixties, efforts were made to increase the students involvement in the local community. Community elementary and junior high schools were made available to those students who it was felt could succeed in these school programs. Special education facilities for a small number of educable mentally handicapped and physically disabled children were made available through Illinois State University. The effort to involve community school programs altered the conception of educational programming provided on the institutional grounds.

One initial decision transformed the graded structure of the on-grounds school to an ungraded program. The problems apparent in working with children who were academically behind due to maladjustment, poor motivation or truancy demanded a more flexible school structure. The ungraded concept better provides this structure. Students can be programmed individually with consideration for age, achievement potential, achievement level, physical and emotional maturity, and occupational goals.

With the more well adjusted, academically proficient student attending community schools, the on-grounds school was more clearly identified as a special education facility. Staff training in the areas of social maladjustment and learning disabilities was encouraged. Cooperative programs with the Department of Special Education at the Illinois State University were initiated.

Title I of the Elementary and Secondary Education Act of 1965 provided funds for the development of programs for disadvantaged youth. These programs have substantially increased our ability to serve the disadvantaged student. Title I projects have extended testing service and remedial programs in reading and mathematics available to the school. Special instructional materials and equipment have been purchased to aid the teacher working with the culturally deprived child.

II. EDUCATIONAL DEVELOPMENT - CURRENT YEAR

During the current school year a new program has been initiated to provide more adequate educational information on current and incoming students.

Two one-half time teachers are being utilized to administer diagnostic tests, experiment with different educational techniques and materials and write individualized educational plans for all of the students. The information provided by these teachers enables the classroom teachers to work with students at their own level and rate of speed using an individualized approach.

Those educational programs initiated in the sixties are continually being developed and refined. In addition, vocational training programs, and high school courses are now being taught on grounds, with course credit being applied at University High School.

Vocational training has been extended through the availability of Vocational Education Funds and a new activity center facility. Vocational Training Programs are offered in the areas of Small Motor Repairs, Home Appliance Repairs, Electricity, and Business Education, which includes Clerk-Typist Training, Cash Register Training, Business Office Machines, and Office Practices. Training is also offered in the areas of Home and Consumer Economics.

Along with our classroom and shop instruction in Vocational Training, students are offered work experiences, for pay, at job training stations both on grounds and in the community.

An Interim or Alternate high school program located on institutional grounds has been developed by a committee of educational staff members. The high school program is in response to the needs of our older students who enter the institution during the middle of a semester, or who have demonstrated an inability to succeed in community high school programs. Institutional teachers provide instruction for credit in almost all academic areas. Vocational training and job preparatory classes are included.

Our on-grounds high school program also serves a small number of students that are under guardianship of the Department of Children and Family Services and live in the community, but need the type of program that we offer because of their inability to function in community schools.

ILLINOIS BRAILLE AND SIGHT SAVING SCHOOL

Jacksonville, Illinois

The Illinois Braille and Sight Saving School is the third oldest tax supported institution in Illinois. Senate Bill 19, passed by the Legislature on January 10, 1849, and signed into law by Governor Augustus C. French on January 13, 1849, created the Illinois Institution for the Education of the Blind. In 1905 the name of the school was changed to the Illinois School for the Blind and again on January 1, 1954, to its present name, the Illinois Braille and Sight Saving School.

The school is located in Jacksonville, Illinois, and situated six blocks east of the center of town. The school campus encompasses 17 1/2 acres and has 16 buildings which include educational facilities, dormitories, and dining room. The Illinois Braille and Sight Saving School is one of several residential facilities which are operated by the Illinois Department of Children and Family Services.

The function of the school from its founding has been to educate blind and partially seeing children who are residents of the State of Illinois. The admission policy of the school limits the enrollment to children who have no special educational facilities available to them in their local community and/or to children whose problems are such that a residential-type placement best serves their individual needs. The school is a state supported, public residential educational facility, and no charges are made to the families of the students in attendance. Room, board, tuition, and books are paid from funds appropriated by the Legislature of the State of Illinois.

The Illinois Braille and Sight Saving School provides comprehensive educational and training programs for visually handicapped children at the elementary and high school level in a residential setting. Significant advances have been made at this facility in serving multi-handicapped children, including deaf-blind children. IBSSS is offering an alternative four-year high school program for blind youngsters with limited academic abilities. The program focuses on daily living and pre-vocational skills so vitally important if the handicapped youngster is to some day take his place in the work-a-day world.

1973-74 School Year

Twelve seniors were graduated from high school in June of 1974. The enrollment at the end of the 1973-74 school year was 177. Approximately 60% of the population of the school are classified as multi-handicapped; 24 of these are being provided an educational program by the deaf-blind department.

One of the highlights of this school year was the holding of an open house in January in recognition of the 125th anniversary of the founding of the school. A large crowd of friends, former students, and parents were given a tour of the school facilities and an opportunity to observe programs in session.

The work/study program for high school students continued to function successfully. Students were given an opportunity for work experience in the following areas: switchboard operation, vending stand operation, dining room work, housekeeping, laundry, storeroom, and child care. Through a grant from the Illinois Division of Vocational Rehabilitation, students in the work/study program were paid a salary for their work.

In the fall of 1973, the administration and staff of the Illinois Braille and Sight Saving School set out on the task of applying for recognition to the National Accreditation Council for Agencies Serving the Blind and Visually Handicapped. This organization has established criteria and standards for residential schools for the blind. During the 1973-74 school year, curriculum guides were developed by staff for the total curriculum of the school, and a statement of philosophy and objectives was formulated by the administration and accepted by staff as part of the preparation for NAC recognition.

Athletics, music, dramatics, forensics, social activities continue to play an important part in the overall program of the students in school. Again this year, the wife of the Governor, Mrs. Roberta Walker, was present to present the awards to the music students at the annual Lowell B. Mason Music Festival. This is the 17th consecutive year in which the First Lady of the State has been present to participate in this activity.

The track and wrestling teams in the past school year have had outstanding records. The high school students participated in the state music contest this year, and all contestants were given a superior rating for their performance.

1974-75 School Year

Fifteen seniors were graduated from the high school in June of 1975. The enrollment at the end of the 1974-75 school year was 170. The characteristics of the students enrolled in the school continue the trend as in the past in which more and more multi-handicapped children are being admitted.

Approximately 75% of the students in the school are multi-handicapped. Although the population of the school continues to decline slightly each year, the need for special services for the students enrolled increases. The number of students in need of counseling, physical therapy, speech therapy, and other ancillary services grows each year. The students seeking admission to the school are children who have very specialized needs and whose needs can best be served in a residential setting.

One of the highlights of this school year was the visitation of the NAC accrediting team to the school in March. A nine-member team composed of professional leaders in the field of education of the blind visited the school for three days and submitted their report to NAC. The school was notified in June that the team recommended accreditation for a five-year period. The Illinois school was the 13th school in the nation to be so recognized by NAC.

In 1974, the work/study program for high school students was expanded to include off-campus work experiences. Three students were placed in work situations within the community. The three work experiences were in house-keeping, dark room work in photo processing, and machine shop work. It is anticipated that this area of our work/study program will be expanded next year.

A parent association of the Illinois Braille and Sight Saving School was founded in the spring of 1975. After several meetings with groups of parents at the school, a constitution was approved and a board of directors for the parent association elected. This group will become an advisory group to the administration of the school, thereby enabling an improved working relationship between parents and the school.

In February, 1975, the total teaching staff of the Illinois Braille and Sight Saving School attended a two-day institute for teachers of the visually handicapped sponsored by the Illinois Office of Education in Chicago. This is the first time that it was possible to have the entire teaching staff attend this conference.

For a number of years, the Illinois Braille and Sight Saving School has had a close working relationship with Illinois State University, and many of the students from ISU have done their practice teaching at IBSSS. In the spring of 1975, a new experimental program for students preparing to teach the visually handicapped was instituted in conjunction with ISU. The ISU junior students participated at the Illinois Braille and Sight Saving School in an on-campus work experience in which they served as teaching aides for a 10-week period. The program proved to be most successful, and plans are underway to conduct a similar program each semester next year.

The students of the school participated in the usual number of athletic, music, dramatic, and recreational activities as in the past. Mrs. Walker, wife of the Governor of the State of Illinois, was again present for the Mason Music Festival. It is always one of the highlights in the student activities for the year.

Board of Vocational Education and Rehabilitation
Division of Vocational and Technical Education

Vocational and Technical Education in FY 1975

During FY 1975 bills were introduced into the 79th Illinois General Assembly to repeal sections of the act giving authority for vocational and technical education to the State Board of Vocational Education and Rehabilitation and to give this power to the State Board of Education. At the end of the fiscal year the legislation had not progressed to the stage of being enacted into law. Hence, the State Board of Vocational Education and Rehabilitation continued throughout the year to administer programs authorized by the Vocational Education Amendments of 1968 and the Manpower Development and Training Act (MDTA), which was phased out during the year and replaced by the Comprehensive Employment and Training Act (CETA). The State Board also administered projects under special USOE grants.

The Division of Vocational and Technical Education (DVTE), the administrative agency under the State Board of Vocational Education and Rehabilitation, continued to function under a Management by Objectives System in conjunction with the Annual State Plan.

At the end of FY 1975, DVTE had 84 employees involved with programs under the Vocational Education Amendments of 1968 and 19 employees with MDTA and CETA programs. Seven additional persons were assigned to projects funded by special grants from USOE.

DVTE administrative staff met frequently with top administrative staffs of the Illinois Community College Board, the Board of Higher Education, the Illinois Office of Education, and the State Advisory Council on Vocational Education to discuss matters related to program planning and delivery.

Division personnel met with several other state agencies to coordinate resources and program delivery for persons who can benefit from the combined services of the different agencies. For example, personnel from DVTE, the Division of Vocational Rehabilitation, and the Illinois Office of Education coordinated services for handicapped students. Representatives of the Illinois State Employment Service, the Manpower Development and Training Unit of DVTE, and the Illinois Office of Education articulated their efforts to serve adults in need of basic education, occupational skills and subsistence allowance while participating in programs.

Division personnel were involved with staff members of the Illinois Office of Education and the Illinois Community College Board to exchange expertise and statistical information and to jointly carry out such activities as program consulting, program approval and local program evaluations. Division personnel maintained contacts with the U.S. Department of Labor, Wage and Hour Division, and the State Department of Labor, Labor Standards Division, in matters related to revising child labor laws, minimum wage laws and hazardous occupations.

DVTE focused on improving the quality of programs and meeting the needs of an increasing number of persons who can benefit from occupational training. Workshops, consultative services, program evaluations, professional and curriculum development activities, and research and development projects continued to

The State Board also administered projects under special USOE grants.

The Division of Vocational and Technical Education (DVTE), the administrative agency under the State Board of Vocational Education and Rehabilitation, continued to function under a Management by Objectives System in conjunction with the Annual State Plan.

At the end of FY 1975, DVTE had 84 employees involved with programs under the Vocational Education Amendments of 1968 and 19 employees with MDTA and CETA programs. Seven additional persons were assigned to projects funded by special grants from USOE.

DVTE administrative staff met frequently with top administrative staffs of the Illinois Community College Board, the Board of Higher Education, the Illinois Office of Education, and the State Advisory Council on Vocational Education to discuss matters related to program planning and delivery.

Division personnel met with several other state agencies to coordinate resources and program delivery for persons who can benefit from the combined services of the different agencies. For example, personnel from DVTE, the Division of Vocational Rehabilitation, and the Illinois Office of Education coordinated services for handicapped students. Representatives of the Illinois State Employment Service, the Manpower Development and Training Unit of DVTE, and the Illinois Office of Education articulated their efforts to serve adults in need of basic education, occupational skills and subsistence allowance while participating in programs.

Division personnel were involved with staff members of the Illinois Office of Education and the Illinois Community College Board to exchange expertise and statistical information and to jointly carry out such activities as program consulting, program approval and local program evaluations. Division personnel maintained contacts with the U.S. Department of Labor, Wage and Hour Division, and the State Department of Labor, Labor Standards Division, in matters related to revising child labor laws, minimum wage laws and hazardous occupations.

DVTE focused on improving the quality of programs and meeting the needs of an increasing number of persons who can benefit from occupational training. Workshops, consultative services, program evaluations, professional and curriculum development activities, and research and development projects continued to

have an impact on vocational and technical education. Among other things, DVTE accomplished the following:

- . conducted 66 sub-regional planning workshops with 1,459 LEA personnel attending;
- . evaluated 739 local one and five-year plans for occupational education;
- . coordinated and supported 90 on-site team evaluations of the total vocational and/or technical program within a district;
- . developed and disseminated a publication on sequential programs to assist LEA's with clustering and sequencing related areas of learning;
- . continued to assist LEA's in identifying curriculum and other resource materials, equipment and facilities to support program implementation;
- . continued to promote and support occupational education for disadvantaged and handicapped persons in LEA's and State institutions;
- . developed under contract the film "A Rose by Any Other Name" which was utilized to help promote career education activities at the elementary level;
- . conducted 14 workshops to introduce the Handbook for Career Guidance Counselors with 1,100 secondary and post-secondary personnel attending;
- . contracted for nine curriculum development projects;
- . continued to support the role of one person from each of the eight state universities to coordinate occupational education activities on each of the campuses and to assist in the development of a statewide delivery system for occupational education personnel;
- . contracted for four preservice education activities and 57 inservice workshops and other staff development activities with several being coordinated through Superintendents of Educational Service Regions and through the Illinois Vocational Association;
- . expanded the services of the Illinois Curriculum Management Center, a USOE funded project, to serve twelve states;
- . continued to extend DVTE's preservice, inservice and curriculum development activities through nine projects under the Education Professions Development Act;

- . contracted for the refinement of the Management Information System, a USOE funded research project designed to assist local educators and DVTE personnel in planning, managing and evaluating vocational education activities;
- . contracted for eight other research and developmental activities and twelve exemplary programs and projects;
- . continued to promote cooperation with business and industry in planning and evaluating occupational programs and providing training for cooperative education students; and
- . prepared a Prime Sponsors Planning Guide and provided assistance to 20 prime sponsors of Comprehensive Employment and Training Act (CETA) programs.

By the end of FY 1975, 26 area vocational centers were operational with 269 public and 15 parochial school districts participating. Facilities were under construction for five additional AVC's. Facilities were being built to replace two existing AVC's operating in old buildings and to expand another AVC. In addition, other groups of school districts were working on educational specifications and facility plans.

Enrollments in vocational and technical education continued to increase over previous years. The FY 1975 total reached 1,605,968 which exceeded FY 1974 enrollments by 487,900. Tables V and VI provide data by grade level and program. Tables VII through X provide information on reimbursement expenditures.

SAFETY AND DRIVER EDUCATION

The Safety Education Section of the Illinois Office of Education has the primary responsibility to provide leadership and administrative and supervisory services for a statewide, comprehensive Safety Education Program in grades kindergarten through twelve.

Every child has a right to protection and instruction against the hazards to which he is subjected. In our industrialized and urbanized society, perils exist in all phases of human activity with the result that accidents are a major social and economic problem. If we are to minimize the number of accidents caused by unsafe behavior of people, programs in accident prevention must be a legitimate and integral part of our schools' general curricula.

A plan to implement a comprehensive instructional program in grade levels K-12 has been put in practice. Such a plan was necessitated because of the fragmentation of safety education as taught in Illinois schools. Four specific areas of concern are teacher preparation, curriculum, pre-service and in-service training, and program evaluation.

Curricula have been developed, stating performance objectives, and using the interdisciplinary approach in the areas of (1) driver education, including special education programs; (2) motorcycle safety; (3) school bus safety; (4) pedestrian and bicycle safety K-8; and (5) general safety education K-3.

A comprehensive Pedestrian and Safety curriculum for elementary schools, Safety Education Units for Illinois Elementary Schools, K-8, continues to be made available and now includes an Ethnic modification. During the 1974-75 school year, approximately 70 percent of all elementary schools in Illinois had access to this curriculum. A first of its kind, this curriculum gained national, as well as international, acclaim with its adoption by U. S. Department of Transportation as a national model.

A safety education curriculum, Safety Education Units for Illinois Schools, K-3, continues to be implemented along the same lines as that of the Pedestrian and Bicycle safety education curriculum. Extension of this curriculum will eventually become a comprehensive safety education curriculum for grades K-12. The lessons are so constructed as to permit teachers to use any lesson at any time it seems appropriate. During the 1974-75 school year, approximately 50 percent of all elementary schools in Illinois had access to this curriculum.

An important facet of the safety education program is the driver education course offered to all Illinois residents 15 years of age. This course of instruction has been available since 1957 which was the date of the passage of the Illinois Reimbursable Driver Education Act. The instructional program is offered in all public secondary schools, 12 private, parochial, and independent schools, 9 governmental agencies, and 58 commercial schools. Reimbursement to the public school districts meeting the terms of the Reimbursable Act consists of \$10 for each student completing the classroom instruction and \$40 for each student completing the laboratory instruction. During the first year, 1957-58, the reimbursement amount totaled \$639,282.26. In 1974-75, 206,700 students completed classroom instruction and 190,540 students completed laboratory instruction for which schools were reimbursed \$9,684,883.62.

NEW PROGRAMS AND UNITS OF INSTRUCTION 1974-75
(Approved by IBHE)

SIU-Carbondale:

Doctor of Medicine
Juris Doctor
Bachelor of Arts in Linguistics
Bachelor of Arts in Religious Studies
Department of Vocational Education Studies formed from the
Department of Home Economics Education, the Department of
Business Education, the Department of Occupational Education,
and the Agricultural Education component of the Department
of Agricultural Industries.

SIU-Edwardsville:

Bachelor of Science in Mathematical Studies, Statistics Option
Master of Arts in English, Linguistics Option

BUILDINGS OCCUPIED, 1974-75

SIU-Carbondale:

Faner Hall - Phase II and III

SIU-Edwardsville:

None

University of Illinois
Programs Added and Deleted Since January 1, 1974

Urbana-Champaign

Programs added:

1. Nuclear Engineering Curriculum leading to the degree of Bachelor of Science in Nuclear Engineering within the College of Engineering.
2. Graduate degree program leading to the degree of Master of Fine Arts in Theatre.
3. Graduate degree program leading to the degree of Master of Computer Science.
4. Undergraduate fields of concentration in Linguistics and Asian Studies in the Sciences and Letters Curriculum in the College of Liberal Arts and Sciences.
5. Graduate program leading to an Advanced Certificate in Community College Mathematics Teaching.
6. Open Studies Option within the Bachelor of Music Curriculum to provide another alternative for students interested in Individualized Programs of Study within the School of Music.
7. An Equipment Operations Option within the Agricultural Mechanization Major within the Core Curriculum offered by the College of Agriculture.

Programs deleted:

None

Other changes:

1. The separate curricula in Physical Education for Men and Physical Education for Women combined into one curriculum in Physical Education.
2. Three doctoral programs: Doctor of Business Administration, Doctor of Philosophy in Business, and Doctor of Philosophy in Marketing converted into one program - Doctor of Philosophy in Business Administration.
3. Beginning academic year 1975-1976 the preprofessional Medical Laboratory Sciences Curriculum in the College of Liberal Arts and Sciences will be reduced from three years to two years and the professional program at the Medical Center Campus increased from one to two years.

University of Illinois
Programs Added and Deleted Since January 1, 1974

Chicago Circle

Programs added:

1. Undergraduate Program in Polish
2. Undergraduate Program in the Teaching of Polish
3. Undergraduate Program in Classical Civilization
4. Bachelor of Social Work (This program was added in 1973 but omitted from the list of program changes which was submitted in January 1974.)
5. Master of Arts in Environmental and Urban Geography
6. Doctoral Program in Physics (Doctor of Arts)
7. Doctoral Program in Biology and Experimental Pathology (joint program with the Medical Center)
8. Doctoral Program in Public Policy Analysis

Programs deleted:

None

University of Illinois
Programs Added and Deleted Since January 1, 1974

Medical Center

Programs added:

1. Master of Science in Public Health
2. Doctor of Public Health
3. Doctor of Philosophy in Nursing
4. Doctor of Philosophy in Biology and Experimental Pathology (Joint program with Chicago Circle)

Programs deleted:

None

Other changes:

1. Beginning academic year 1975-76 the professional program in Medical Laboratory Sciences Curriculum will increase from one to two years and the required preprofessional program, completed at other institutions will be reduced from three to two years.
